

HealthShare

Outline

A HealthShare is program that allows for members to share in medical expenses. Planstin partners with Zion Health to bring the best HealthShare experience. Through a proven and organized sharing model, members share with one another major medical costs. See zionhealthshare.org to learn more.

Sharable Medical Expenses

In a HealthShare, medical expenses that come up are called “needs” or “sharable amount”. Health shares are to help protect against large medical expenses as members share in those expenses together.

Initial Unsharable Amount (IUA)

Like a deductible, the first \$1,000, \$2,500 or \$5,000 in medical costs will be the member responsibility. The remaining sharable medical expenses would be submitted to Zion Health for needs processing.

Use of HealthShare

Members are not required to use a network of doctors or providers. Members are considered cash-pay clients with the provider which saves money for all parties and provides the member with the freedom to use any provider in the world.

Pre-existing Conditions

Medical conditions may have limitations if they are pre-existing. Pre-existing conditions will gain coverage over time. First year expenses are not sharable. For the second year the plan can share up to \$25,000. For the third year the plan can share up to \$50,000. After the third year, pre-existing conditions are fully sharable.
